WHO IT IS FOR

Product owners, founders, developer relations and enterprise provider teams.

THE QUESTION

A provider may offer models, tools and services with different evidence and release states. A portfolio scope organizes those objects without allowing one product's claim to stand in for another.

WHAT YOU CAN WORK WITH

01

A named multi-object portfolio boundary.

02

Per-product ownership, documentation and evidence distinctions.

03

Agreed portfolio updates and reporting.

FROM STARTING POINT TO NEXT DECISION

1 Define

Identify the product and the person authorized to submit material.

→

2 Examine

Separate provider statements from independently reviewed evidence.

→

3 Agree

Agree the object count, review work, update cadence and annual contract.

SCOPE AND NEXT STEP

Agree scope, users, permitted use and start date in the order.
