WHO IT IS FOR

CIOs, AI governance owners, security, procurement and business-unit leaders.

THE QUESTION

Tools and pilots are difficult to govern when no one can connect them to owners and evidence. Workspace defines the entry SaaS scope for an organizational AI inventory.

WHAT YOU CAN WORK WITH

01

Inventory structure linking systems, purpose and accountable owner.

02

Source and evidence references next to the system record.

03

An inspectable fictional operating specimen.

FROM STARTING POINT TO NEXT DECISION

1 Map

Define the organization, inventory scope and accountable owners.

→

2 Connect

Map systems to vendors, evidence, use cases and decisions.

→

3 Validate

Agree the operating environment and validate access before onboarding.

SCOPE AND NEXT STEP

Agree scope, users, permitted use and start date in the order.
