04 AI ESTATE

AI Estate Business

Connect the AI inventory to business functions, decision owners and recurring governance.

€12,000 / year

net · EUR · plus VAT where applicable

Demonstration · early access on request

WHO IT IS FOR

CIOs, AI governance owners, security, procurement and business-unit leaders.

THE QUESTION

An inventory becomes operationally useful when teams know which systems support which work and who must act on an evidence gap. Business scopes that shared governance view.

WHAT YOU CAN WORK WITH

01

System-to-function and owner relationships.

02

Evidence gaps and decisions requiring review.

03

An agreed business reporting and operating scope.

FROM STARTING POINT TO NEXT DECISION

1 Map

Define the organization, inventory scope and accountable owners.

→

2 Connect

Map systems to vendors, evidence, use cases and decisions.

→

3 Validate

Agree the operating environment and validate access before onboarding.

SCOPE AND NEXT STEP

Agree scope, users, permitted use and start date in the order.
