Demonstration · early access on request

WHO IT IS FOR

CIOs, AI governance owners, security, procurement and business-unit leaders.

THE QUESTION

Groups need to see shared vendors and dependencies while retaining organizational accountability. Enterprise scopes the AI estate view around that complexity and its access requirements.

WHAT YOU CAN WORK WITH

01

A configured organization and system boundary.

02

Relationships between units, owners, vendors and evidence.

03

Explicit deployment, access and operating requirements.

FROM STARTING POINT TO NEXT DECISION

1 Map

Define the organization, inventory scope and accountable owners.

→

2 Connect

Map systems to vendors, evidence, use cases and decisions.

→

3 Validate

Agree the operating environment and validate access before onboarding.

SCOPE AND NEXT STEP

Agree scope, users, permitted use and start date in the order.
