04 AI ESTATE

TrustOps / Evidence Watch

Connect source changes to a defined review scope and the people responsible for follow-up.

Fee configured to agreed scope

Configured engagement

net · EUR · plus VAT where applicable

WHO IT IS FOR

CIOs, AI governance owners, security, procurement and business-unit leaders.

THE QUESTION

A changed source can make an old decision worth revisiting. Evidence Watch scopes observation, change review and escalation around agreed systems and sources.

WHAT YOU CAN WORK WITH

01

Defined watch scope, source eligibility and responsible reviewer.

02

Observation and change projections with provenance.

03

An agreed review and escalation process.

FROM STARTING POINT TO NEXT DECISION

1 Map

Define the organization, inventory scope and accountable owners.

→

2 Connect

Map systems to vendors, evidence, use cases and decisions.

→

3 Validate

Agree the operating environment and validate access before onboarding.

SCOPE AND NEXT STEP

Agree scope, users, permitted use and start date in the order.
