06 TRANSFORMATION

Controlled AI Pilot

Test a bounded workflow against a baseline, success thresholds and agreed stopping conditions.

Fee configured to agreed scope

net · EUR · plus VAT where applicable

Scope and delivery by agreement

WHO IT IS FOR

Transformation sponsors, operating leaders, enterprise architects and delivery teams.

THE QUESTION

A pilot is useful when it can answer a decision question. Define the permitted workflow, evidence to collect and stopping conditions before exposing real work to a new system.

WHAT YOU CAN WORK WITH

01

A bounded pilot question, baseline and measurement design.

02

Named owners, permissions, human checks and intervention plan.

03

Observed result review against success and stop criteria.

FROM STARTING POINT TO NEXT DECISION

1 Scope

Set the operating boundary and a baseline that can be measured.

→

2 Deliver

Name delivery responsibilities, approvals and intervention points.

→

3 Review

Review observed results before expansion or continued operation.

SCOPE AND NEXT STEP

Agree scope, users, permitted use and start date in the order.
