06 TRANSFORMATION

Workflow & Agent Implementation

Connect workflow design, permitted tools, testing and handover in one implementation scope.

Fee configured to agreed scope

net · EUR · plus VAT where applicable

Scope and delivery by agreement

WHO IT IS FOR

Transformation sponsors, operating leaders, enterprise architects and delivery teams.

THE QUESTION

An agent changes who or what can act inside a workflow. Integration must therefore include permitted tools, data boundaries, intervention and failure handling as well as the intended function.

WHAT YOU CAN WORK WITH

01

Workflow and interface specification tied to the agreed use case.

02

Permission, approval, escalation and failure-handling design.

03

Implementation, testing and acceptance stages defined in the engagement.

FROM STARTING POINT TO NEXT DECISION

1 Scope

Set the operating boundary and a baseline that can be measured.

→

2 Deliver

Name delivery responsibilities, approvals and intervention points.

→

3 Review

Review observed results before expansion or continued operation.

SCOPE AND NEXT STEP

Agree scope, users, permitted use and start date in the order.
