06 TRANSFORMATION

AI Business Operating Model Design

Define the work, responsibilities and decision rights needed to put AI into an operating model.

Fee configured to agreed scope

Scope and delivery by agreement

net · EUR · plus VAT where applicable

WHO IT IS FOR

Transformation sponsors, operating leaders, enterprise architects and delivery teams.

THE QUESTION

Adding AI without changing responsibilities often moves work rather than improving it. Operating-model design starts with the work, decisions and controls the organization needs.

WHAT YOU CAN WORK WITH

01

Target workflow, decision rights and human/AI responsibility map.

02

Evidence, governance and intervention requirements.

03

A staged transition and acceptance design.

FROM STARTING POINT TO NEXT DECISION

1 Scope

Set the operating boundary and a baseline that can be measured.

→

2 Deliver

Name delivery responsibilities, approvals and intervention points.

→

3 Review

Review observed results before expansion or continued operation.

SCOPE AND NEXT STEP

Agree scope, users, permitted use and start date in the order.
