07 DATA & LICENSING

Registry / Navigator API

Define fields, provenance, access and licensed use for an intended market-data integration.

Research & architecture

Architecture & roadmap

net · EUR · plus VAT where applicable

WHO IT IS FOR

Research teams, enterprise strategy, publishers, media and data-product owners.

THE QUESTION

An integration needs stable field meaning, permitted use and explicit source provenance. The API product defines that commercial and technical scope; it does not create a new publication authority.

WHAT YOU CAN WORK WITH

01

Agreed objects, fields, provenance and version semantics.

02

Authentication, use limits and support requirements to confirm before release.

03

Licence and downstream redistribution boundary.

FROM STARTING POINT TO NEXT DECISION

1 Define

Agree the question, edition, dataset or intended publication.

→

2 Research

Document sources, method, freshness and redistribution rights.

→

3 License

Confirm the licence and delivery format before any distribution.

SCOPE AND NEXT STEP

Agree scope, users, permitted use and start date in the order.
