08 TRUST INFRASTRUCTURE

# Trust Passport

Explore how evidence could travel with its identity, scope and validity conditions intact.

## Research & architecture

Architecture & roadmap

net · EUR · plus VAT where applicable

### WHO IT IS FOR

Enterprise architects, governance teams, platform builders and ecosystem partners.

### THE QUESTION

Evidence loses meaning when it travels without scope or dates. Passport research concerns a portable representation whose identity, provenance and limitations remain attached.

### WHAT YOU CAN WORK WITH

**01**

Subject and scope reference.

**02**

Evidence provenance, edition and validity context.

**03**

Recipient and permitted-reliance boundaries.

### FROM STARTING POINT TO NEXT DECISION

**1 Define scope**

Identify the subject, organizational context and intended reliance.

→

**2 Map authority**

Connect evidence and permission to the responsible authority.

→

**3 Validate**

Validate the bounded runtime before any real issuance or execution.

### SCOPE AND NEXT STEP

Research and architecture. Agree implementation and release conditions separately.
