08 TRUST INFRASTRUCTURE

Trust Handshake

Explore how participants could establish identity, evidence and permission before interaction.

Research & architecture

Architecture & roadmap

net · EUR · plus VAT where applicable

WHO IT IS FOR

Enterprise architects, governance teams, platform builders and ecosystem partners.

THE QUESTION

A connection is not permission. Handshake research examines how participants could exchange identity, evidence and allowed scope before an interaction.

WHAT YOU CAN WORK WITH

01

Participant identity and organizational context.

02

Evidence and permission requirements.

03

Explicit accept, deny and expiry conditions.

FROM STARTING POINT TO NEXT DECISION

1 Define scope

Identify the subject, organizational context and intended reliance.

→

2 Map authority

Connect evidence and permission to the responsible authority.

→

3 Validate

Validate the bounded runtime before any real issuance or execution.

SCOPE AND NEXT STEP

Research and architecture. Agree implementation and release conditions separately.
